

VTech Record and Learn KidiStudio Speaker Replacement

Use this guide if the speaker is not working on your VTech Record and Learn KidiStudio.

Written By: Shaina Carbonel

INTRODUCTION

This guide will show how to replace the speaker for the 2014 VTech Record and Learn KidiStudio if it stops working.

TOOLS:

- [Solder](#) (1)
- [Phillips #2 Screwdriver](#) (1)
- [Soldering Station](#) (1)

PARTS:

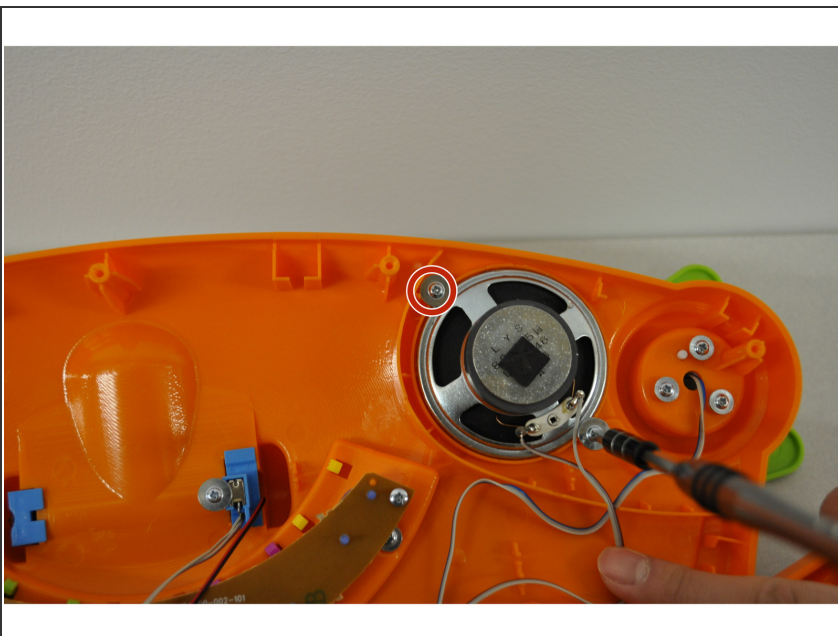

- [New speaker](#) (1)

Step 1 — Speaker

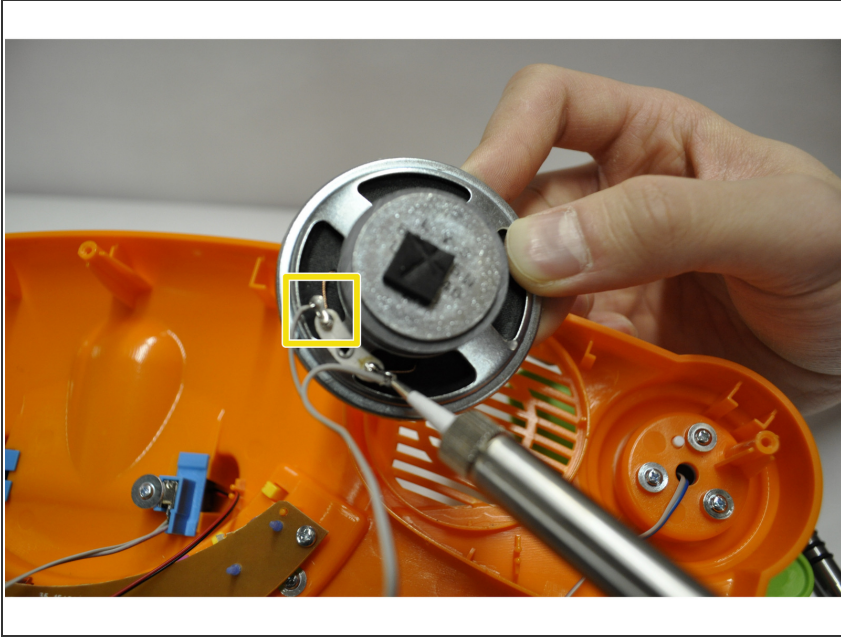

- Unscrew 11 PH2 screws (7 mm).
 - Remove the black plastic backing.
- ⚠ Remove the batteries from the toy before beginning replacement of the speaker.**

Step 2

- In the top right corner inside the device, unscrew the 2 PH2 screws (5 mm) holding the speaker in place.

Step 3

- Desolder the electrical connections from the speaker and replace part.

To reassemble your device, follow these instructions in reverse order.
